HONORING ALL WHO SERVED

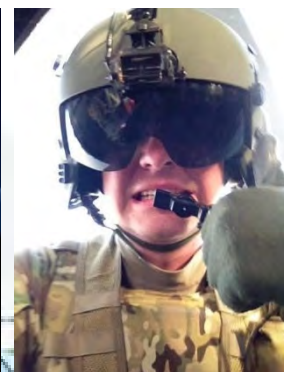

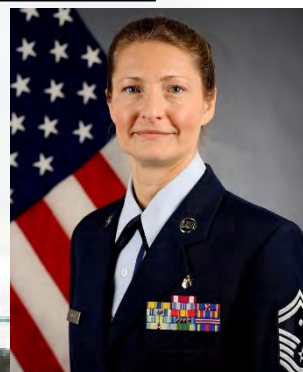

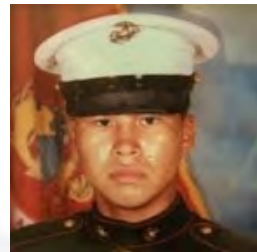

VETERANS DAY

Tom Pietrak
Electrical Engineer
Army, 8 years

What skill/experience from your time in the service do you bring to your work on TAPS?

"The value of working with others as a team. Almost any activity in the military is based on teamwork. Nothing great can be achieved without being supported by your "buddy," squad, platoon, or company. The experience taught me the value of empathy and enabled the ability to look beyond myself."

A USER'S GUIDE

GENERAL STANLEY
McCHRISTAL

— U.S. Army, Retired —

& ANNA BUTRICO

“Every day the men and women of America’s oil and natural gas industry provide the energy to maintain our quality of life, power our economy, and improve the condition of people here at home and around the globe. This industry meets Americans’ needs with a strong commitment to safety, reliability and environmental performance ...”
